

Topic for this term

Our Heritage

This half term we have been thinking all about us and the places and things that are important to us. We have been focusing on the structure of sentences whilst writing about important places and things that matter to me. In our enquiry time we are starting to look at maps, going from maps of where we live and will build on this to look at maps of the local area, the UK and the world.

We have a focus on life skills, including hygiene and building independence. In Science, we are starting to investigate forces and magnets.

In Maths, we are continuing to build our knowledge of number and focusing on place value.

Autumn term 2026

Welcome back! We hope that you had a lovely summer and that the children are ready to learn!

Our class shared text

How can you help at home?

Each week your child will bring home some exciting new books to read with you. When your child is reading here are some questions that you can ask. To support retrieval you could ask: Who is this? Who/what/where is ____? (an item or character). To help your child make predictions you could ask: What will happen next? Or What could they say?

To support your child with maths, participating in everyday experiences is helpful, get them to come to the shops and help budget for the food/ clothes that you would like to buy.

Please ensure your child's PE kit is in school **every day** in the event that there are opportunities for extra sessions. Our timetabled PE session with our PE coach is on Tuesday and Friday.

We will also be having time in the garden every **Wednesday**, so please ensure that your child is sent to school in an appropriate weatherproof coat especially as the weather is becoming cooler. Thank you.
