

## Topic for this term

### Planes, Trains and Automagical Things!

This half term, we will be exploring different modes of transport and using this to inspire some of our writing. During maths, we will be focusing on addition and subtraction and we will apply these skills to some real life situations involving transport modes, timetables and money.

In English, we will be using colourful semantics to support us in exploring and writing about the text.

We will be continuing to use the zones of regulation to support us in expressing our feelings and strategies to support self-regulation alongside continuing to develop our understanding of others and friendships.

### **Autumn term 2 2026**

Welcome back! We hope that you had a lovely half term break and that the children are ready to learn!  
Miss Shewell and the Provision Team

## Our class shared text

## How can you help at home?

Each week, your child will bring home some exciting new books to read with you. Please continue to read and talk about these. The library is also a great resource for picking up new texts that they may be interested in.

To support your child with Maths, participating in everyday experiences is helpful, if you are going on an outing via public transport, it would be great to encourage your child to take a look at the timetables and work out how much a ticket should cost.

Please ensure your child's PE kit is in school **every day** in the event that there are opportunities for extra sessions. Our timetabled PE session with our PE coach is on Wednesday.

We do spend time outdoors in both the garden and the playground so please send your child in with a weather appropriate coat every day. Thank you.
