

Topic for this term – Stone Age to Iron Age

We will be continuing our topic of Stone Age to Iron Age this term. The children's knowledge of the period has grown significantly and we will build upon this as the term goes on.

We will be:

- Promoting curiosity around the Stone Age to the Iron Age by using evidence to ask 'big' questions and find answers about the past.
- Develop an understanding of life in Britain and how and why it changed from the Stone Age to the Iron Age.
- Compare the Bronze and Iron Age with other civilizations around the world including; Ancient Egypt and Ancient Greece.
- Describe what society and culture were like during the Stone, Bronze and Iron Ages.

The children will then use their computing and reading skills to research an area of interest, identifying questions to research and presenting their findings to each other in the form of animation

In English, we will begin by writing recounts, in role, as Iron Age people living in a Hillfort. We will be learning the model together with lots of actions and expression and drawing upon this within our writing. The children will then be applying what we've learnt to create their own recounts.

Year 3 Newsletter Autumn 2 term 2026

Welcome back! We hope that you had a lovely half term and that the children are ready to learn!

Miss East, Mrs Legoux and Mrs Saunders

Our class shared text

Important Dates

3E Family Assembly- Friday
13th November

3L Family Assembly- Friday
20th November

How can you help at home?

Reading

We have now completed accelerated reader star assessments. Children will bring home a colour banded book from the book corner to read. Please make sure that they bring their reading book and diary into school each day. Children may change their books from the book corner when needed. Teachers will check reading diaries each Friday.

Home learning

Each Friday children will be given a piece of home learning. This will be explained to children in school prior to it being given out. Home learning links directly with work covered in school that week.

Maths

This term we are continuing with our addition and subtraction learning. Quick recall of number bonds (two numbers that go together to make a number) for numbers between 10 and 20 would support your child's learning. Mathletics homework will go live each Friday morning.
